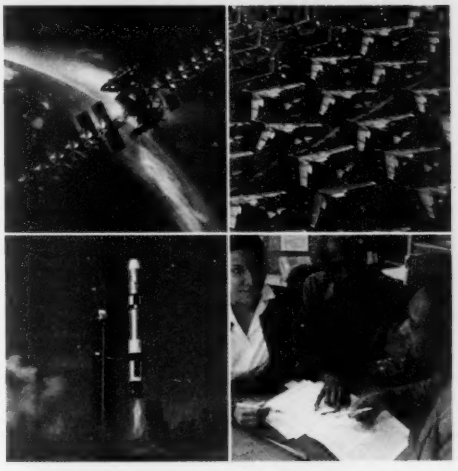
2008 Surface Engineering for Aerospace and Defense Conference and Exposition

January 21-22, 2008
Coronado Springs Resort
Walt Disney World • Orlando, FL



This two day event will bring together surface engineering professionals from a wide variety of disciplines – electroplating, PVD, CVD, thermal spray, ion implantation – focused on problems facing the aerospace and defense industries. Topics include:

- Green Manufacturing and De-Manufacturing
- Engineered Materials for Harsh Environments
- Extending Service Life and Enhancing Performance
- Surface Engineering and Global Climate Change

If your organization is involved in any aspect of surface finishing, you won't want to miss this unique opportunity! In addition to the technical excellence of this conference, the networking opportunities are invaluable.
